

# Community Governance Review 2013

## Points to consider:-

Are you happy with the current arrangements?

Do you think your parish boundary is in the correct place?

Has there been any development that straddles your parish boundary?

Would your parish benefit from being warded if there are, say, two separate communities?

Is your parish already warded but you feel that is unnecessary?

Does your parish name reflect the area?

Do you wish to retain historical boundaries and names?

Would your parish council benefit from another councillor or two?

Are there too many councillors for the area?

Would two or more small neighbouring parish councils benefit from being grouped?

Would two or more neighbouring parish meetings benefit from coming together to form a grouped parish council?
